No policies? Incomplete rules?

Practice “Institutional Courage”

- An institution’s **commitment** to seek the truth and engage in moral action, despite the unpleasantness, risk, and short-term cost.
- It is a **pledge** to protect and care for those who depend on the institution.
- It is a **compass** oriented to the common good of individuals, the institution, and the world.
- It is a **force** that transforms institutions into more accountable, equitable, healthy places for everyone.
